

NORWICH
City Council

Eaton Park (western car park)

New parking restrictions

Start from Monday 26th September 2011

Important information about new parking restrictions for the western car park of Eaton Park (nearest to the Pitch n Putt course and the community centre):

The times of the restriction will be:

- Monday to Friday; 9am - 3pm
- 3 hour maximum wait - (no return in 6 hours)
- The restrictions will only apply during the UEA academic year this is described for the purposes of the restrictions as follows:
from the third Monday in September to last Friday before the late May bank holiday each year.

This new restriction in Eaton Park does not require use of permits and parking will still be free; however the maximum stay will be subject to parking enforcement by Norwich City Council.

If you need to stay longer than 3 hours, we suggest the following options

- 1) Arrive at the car park before the start or before the end of the restricted times and 'overlap' your stay so you get longer than the maximum period
- 2) Use the car park outside of restricted hours
- 3) Use the eastern car park in Eaton Park, which currently has no restriction on parking

In case of query please email transport@norwich.gov.uk or call 0344 980 3333

Additional information

In the future a ticket machine issuing free parking tickets may be introduced in Eaton Park (Western car park) to help parking enforcement. However this is subject to funds becoming available and we do not have a timescale for this project.

The subject of charging for parking in council parks such as Eaton park is part of a current council budget consultation called 'Your services, your say' .
